

HARIOM DUBEY

Java Backend Developer • Spring Boot • REST APIs • Full Stack (React + Java)

+91-8874377436 | hariomdubey906@gmail.com | linkedin.com/in/hariom8863 | github.com/Hariom88 | Noida, UP

PROFESSIONAL SUMMARY

Computer Science graduate (B.Tech 2024) with practical experience in Java backend development, RESTful API design, and full-stack application building using Spring Boot, Hibernate/JPA, Spring Security, and MySQL. Proficient in JWT authentication, OOP, Collections Framework, Exception Handling, and the full SDLC. Seeking an entry-level Java Developer or Software Engineer role to build scalable, production-quality backend systems.

TECHNICAL SKILLS

Core Java: OOP, Collections Framework, Multithreading, Exception Handling, JDBC, Java 8+ Features

Backend: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, REST API, JWT Authentication, Microservices, Apache Kafka

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3

Database: MySQL, SQL, Query Optimization, Relational Schema Design

DevOps & Cloud: Docker, AWS (EC2, S3), Git, GitHub, Maven

Testing & Tools: JUnit, Unit Testing, Postman, Debugging

CS Fundamentals: Data Structures & Algorithms, System Design, API Integration, SDLC

PROFESSIONAL EXPERIENCE

Graduate Engineer Trainee — Talent Serve Pvt. Ltd. *Mar 2024 – May 2024 | Remote*

- Developed and optimized RESTful APIs using Java, Spring Boot, and Spring MVC, reducing average API response time by ~25% through query tuning and caching.
- Integrated Hibernate and JPA for ORM-based persistence; refactored SQL queries with indexed joins and optimized fetch strategies, reducing execution time by ~30%.
- Structured backend into Controller, Service, and Repository layers following SOLID principles, improving code reusability, testability, and maintainability.
- Participated in peer code reviews, resolved critical bugs, and contributed across the full SDLC — development, testing, and deployment.

Java Developer Intern — Oasis Infobyte *May 2023 – Jun 2023 | Remote*

- Built Java applications using OOP principles and Collections Framework (ArrayList, HashMap, LinkedList) to manage and process structured data efficiently.
- Implemented exception handling with try-catch-finally and custom exception classes, improving fault tolerance and reducing unexpected runtime failures.
- Applied Data Structures and Java 8 features to solve algorithmic problems; debugged logic and runtime errors to strengthen code quality and stability.

PROJECTS

Full Stack Job Portal Application | [Spring Boot](#) · [Spring MVC](#) · [Spring Security](#) · [JWT](#) · [React.js](#) · [Hibernate/JPA](#) · [MySQL](#)

- Designed layered MVC architecture (Controller → Service → Repository) with RBAC for Admin, Employer, and Candidate roles; built 15+ secured REST API endpoints for job posting, application tracking, and user management.
- Implemented JWT stateless authentication with token generation, validation, expiry, and role-based authorization via Spring Security filter chain; engineered normalized MySQL schema with indexed columns.
- Applied DTO-based request/response mapping, global exception handling via @ControllerAdvice, and input validation at service/controller layers for clean, robust API contracts.

OTP-Based Authentication System | [Spring Boot](#) · [Spring Security](#) · [JWT](#) · [React.js](#) · [MySQL](#) · [Docker](#)

- Built secure OTP flow with email/SMS delivery, TTL-based expiry, rate limiting, and single-use token enforcement to prevent replay and brute-force attacks.
- Designed REST APIs for OTP generation, validation, and session management with JWT token refresh and invalidation; containerized the stack with Docker for environment-consistent deployment.
- Standardized API responses using @RestControllerAdvice for global exception handling; enforced stateless Spring Security configuration across all protected endpoints.

EDUCATION

B.Tech — Computer Science & Engineering | 2020 – 2024

Raj Kumar Goel Institute of Technology and Management, Noida, UP

CERTIFICATIONS

Java Development — Oasis Infobyte | **AWS Cloud Virtual Internship** — EduSkills | **C Programming** — Prutor, IIT Kanpur
