PROFILE SUMMARY

Java Backend Developer with hands-on experience in building RESTful APIs using Spring Boot, JDBC, Hibernate, and MySQL. Strong understanding of OOP principles and backend system design, with practical internship and project experience. Passionate about writing clean, scalable code and learning enterprise-grade backend systems.

EDUCATION

Raj Kumar Goel Institute of Technology and Management, Ghaziabad B.Tech in Computer Science and Engineering — Graduated 2024	2020 – 2024
Savitri Vidya Vihar Inter College, Basti Class XII — 2020	2018 – 2020
Sardar Patle Rastriye Inter College, Bansi Class X — 2018	2016 – 2018

EXPERIENCE

Talent Serve Pvt. Ltd. <i>Graduate Engineer Trainee — Remote</i>	Mar 2024 – May 2024
--	---------------------

- Selected through campus placement as a Graduate Engineer Trainee.
- Gained exposure to enterprise workflows, development processes, and internal documentation.
- Assisted in Java-based tasks and technical onboarding activities.
- Developed understanding of corporate communication, team collaboration, and project reporting.

Oasis Infobyte <i>Java Developer Intern — Remote</i>	May 2023 – Jun 2023
--	---------------------

- Strengthened Core Java fundamentals and Data Structures & Algorithms problem-solving skills.
- Implemented Java programs focusing on logical thinking and code optimization.
- Applied OOP concepts such as encapsulation, inheritance, and polymorphism.
- Collaborated in team discussions and delivered assignments within defined timelines.

PROJECTS

Employee Management System	Java, Spring Boot, JDBC, MySQL
-----------------------------------	--------------------------------

- Developed a backend system to manage employees, departments, and roles with full CRUD functionality.
- Designed and implemented RESTful APIs integrated with MySQL using Spring Boot and JDBC.
- Managed dependencies using Maven and version control using Git.

Smart Car Parking System	Spring Boot, MySQL, RESTful APIs
---------------------------------	----------------------------------

- Built a real-time parking management backend supporting slot reservation and availability tracking.
- Implemented role-based access control using Spring Security and optimized SQL queries.
- Performed API testing with Postman and unit testing with JUnit, following clean code practices.

SKILLS

Programming & Backend:	Java, Spring Boot, Hibernate, JDBC, RESTful APIs
Database & Tools:	MySQL, Postman, JUnit, Git, Maven, JIRA
Concepts:	OOPs, API Testing, Backend Development

CERTIFICATIONS & TRAINING

- Java Development — Oasis Infobyte
- AWS Cloud Virtual Internship — Eduskills
- C Programming — Prutor IIT Kanpur
